

*This book WILL alter  
your perception of  
disease!*

*“How Emotional Conflicts Trigger Disease – An Astrological View”* is the first book of its kind to ally breakthrough medical discoveries on the relationship between emotional conflicts and disease with sophisticated astrology to help people better understand critical illnesses and promote successful healing processes.

What distinguishes this book from comparable titles is this book focuses on how and why disease occurs based on empirical medical research by Dr. Ryke Geerd Hamer whose findings over the past 20 years in over 40,000 cases of critical illness emphatically prove that an incidence of severe emotional trauma precedes the onset of disease, and that such an

unforeseeable conflict occurs not only in our psyche but also simultaneously in the brain and on the corresponding bodily organ. If the conflict is resolved, the process of disease is reversed on all three levels (the psyche, brain, and physical body), returning the individual to health.

By combining this knowledge with the science and art of astrology, we are able to hone-in on the timing of emotional factors that instigated disease, and assist clients along an emotional healing path.

Although this book is written from an astrological perspective, it is not just for advancing students of astrology and professional astrologers. It is for anyone interested in health, and in medical conditions and their causes.

Learn how and why our perception of emotional conflicts and traumatic events determines our body's response!

⊙ Learn the keys to health and illness.

☽ Explore the relationship among the psyche, brain, and physical body. Discover the correlation between emotional conflicts and the onset of disease.

♀ Identify the timing of emotional factors that led to physical symptoms or medical diagnosis — why a particular illness occurred at a particular time.

♀ Metastasis: fact or theory? Find out what can cause a relapse or secondary occurrence of cancer.

♂ Learn how to use astrology to trace the development of disease back to the initial trauma.

♃ Study 32 cases of illness: in-depth analysis of natal horoscopes, planetary activity tracking disease, and first-hand corroboration of the conflict from the client's perspective in his/her own words.

ち Study a live consultation focusing on the complete method from the preparation work through the actual discussion with the client.

≡ Learn about the conflict theme associated with each body part or organ in Appendix I and II, including ruling planets and signs, natal configurations, and midpoints.

♄ A total of 47 horoscope charts, and 30 planetary Time Flow Tables highlighting the development of disease.

♁ Learn how you can prevent disease!

The Sun/Moon midpoint is noted on all natal horoscopes (located at the top of the aspect grid). Data for all horoscopes are drawn from personal records provided by private clients (with the exception of two celebrity horoscopes).

# Excerpts from the Introduction, Chapter 1 and Foreword by Noel Tyl

## Introduction

---

We all have encountered disease in some form or another, either by ourselves or through those we love, and we have probably asked the same questions. Why do some people become critically ill while others do not? Why is cancer fatal for some and not for others? Why is it that conventional medicine has yet to discover the cause of so many “curable” and “incurable” diseases?

In the process of doing research for this book, I was astonished by the medical industry’s lack of understanding as to the cause of disease. For almost every critical illness, I came across a similar statement, “Medical doctors don’t know what causes this disease, however statistics show that among men, women, Afro-Americans, Asians, or whomever, one in every ‘so many’ are diagnosed

each year." Is discovering the root of disease really that complex, or are there variables not being addressed or considered by medical science, such as the role and interaction of our psyche and brain with our physical body? Can our perceptions of the emotional conflicts and traumas in our lives trigger the onset of disease? The answer to that question is apparently yes, and that is the focus of this book.

**Continued from page xxii:**

Throughout my investigation of disease, I became captured by the ingenuity and logic of Dr. Hamer's theories. I thought if we astrologers can already observe when health crisis hits, then we should also be able to determine exactly when the emotional trauma which initiated the disease occurred. By incorporating the research of world-renowned astrologer Noel Tyl, presented in his book, *Astrological Timing of Critical Illness*, we learn how to detect potential weakness in certain areas of the body. More importantly, we learn how to target early warning patterns of crisis and systemic breakdown to uncover when disease occurs,

focusing primarily on activity involving the health center Ascendant, its ruler, and the 12<sup>th</sup> house of critical illness. Throughout this book we will learn how to apply various astrological techniques (such as Solar Arcs, Indirect Solar Arcs, Transits, and Tertiary Progressions) that enable us to track the development of disease to its initial source, the emotional trauma that triggered disease. We will see how imbalances detected in the natal horoscope allow us to understand why emotional conflicts were perceived as they were, and how a link between critical illness and the theme of the emotional conflict is often reflected in the natal horoscope. We will explore Dr. Hamer's findings, officially called the German New Medicine, to discover how and why disease occurs, and to ascertain the specific nature of emotional conflicts, which instigate disease.

Medical diagnosis is not the purpose of this book, nor is it our role as astrologers. The purpose of this book is to establish the link between early warning patterns of illness to times of emotional conflict and trauma, to identify the timing of the

emotional factors that led to a medical diagnosis so our clients may see this connection, i.e. why a particular illness happened at a particular time. By establishing when the conflict took place and working with Dr. Hamer's correlation between each body organ and its associated conflict (outlined in Appendix I), we can assist in saving lives. Once our clients are armed with knowing which emotional conflicts need to be resolved, healing can begin to take place. It is not until a situation is acknowledged and known, that it can be dealt with constructively. The astrologer is the right person to make this connection, to encourage our clients along an emotional healing path, assist them in taking appropriate action, and help them regain the willpower and strength to become responsible participants in healing their "dis-ease."

You will be mesmerized by Dr. Hamer's findings on every illness from a sore throat to terminal cancer. You will become better Astrologers in the process by learning how to uncover the trigger event of any disease.

---

## The Relationship Among the Psyche, Brain and Physical Body

*“That nobody ever thought that the brain, computer of our organism, might be responsible for all the diseases is very strange in the era of computerization.”*

Dr. Hamer

We are about to embark on a study of the relationship between disease and emotional conflicts. More specifically, how unexpected emotional conflicts are perceived the very moment they occur in our lives. By combining this knowledge with the science and art of astrology, we can better understand critical illnesses and help promote successful healing. For some of you, what you are about to read may shake up your views of conventional medicine. For

others, it will confirm what you already believe to be true, that disease is a synchronous and symbiotic interaction among the psyche, the brain, and the physical body (specifically, the corresponding organ), occurring simultaneously on all three levels.

The cases of critical illness that follow all have something in common...

## Foreword

---

**From pages xii, xiii, and xiv:**

"Delsack's study tracks the understanding of cause. Description of symptoms is one thing; determining cause is quite another. What causes critical illness? --The great insight to gain is this: *if we can understand cause, we can anticipate effect. Body and system breakdown can be warded off if the occurrence of life-shock is understood within time and assimilated within understanding.*"

“Lauren Delsack shows this dramatically with the clearest astrology possible in 32 cases. She pinpoints the emotional conflict associated with the shock-occurrence and studies the astrological symbolism around the experience AND ...”

“Delsack guides us so lucidly into this matrix, the blueprint of our bodily time machine. She persuades that once the conflict is resolved, the body can begin to heal. Oh my! Astrologers: come cross the frontier!”

**View a sample Horoscope and Planetary Time Flow Table ...**

**A Planetary Time Flow Table accompanies analysis of each case to assist astrologers in tracking illness and pinpointing emotional conflicts:**
